

**AQUATEC® OCEAN  
ERGO SHOWER & COMMODE CHAIRS**

**Yes, you can.®**

**AQUATEC®**

# Customer insight-led design to enhance independence, safety and flexibility.

Personal care is a highly private activity and is an important part of a person's life and wellbeing. The **Aquatec Ocean Ergo Family** of shower and commode chairs have been designed with user comfort, independence and dignity in mind. Based on the well-established Aquatec Ocean line, the Ocean Ergo family comes packed with a range of new features, designed to make personal care activities easier for both the user and caregiver.

## **Safety, independence and dignity**

A newly contoured seat surface has been developed to encourage a more upright and stable seating position, promoting user independence and overall

comfort. Enhanced stability at the front of the base allows for a smaller footprint and offers users added safety and reassurance when seated in the chair. Furthermore, the optimized wheelbase makes it even easier for a caregiver to maneuver the chair in small spaces as well as allowing for a better fit over standard toilets for independent toileting.

## **Modular and flexible design**

The modular design of the Ocean Ergo line means that the chairs can be adapted to suit a wide range of user needs by making some simple adjustments, or by adding some of our easy to fit, off-the-shelf accessories.

## **OTHER features include:**

- ▶ Stable, stainless steel frame
- ▶ Machine washable, tension adjustable back with quick-release buckles
- ▶ Easy disassembly for transportation and storage

# Features

## 1 Innovative ergonomic seat

- ▶ Insight-led design encourages a more upright seating position for enhanced independence and comfort

## 2 Greater adaptability

- ▶ With an increased height adjustment range on the footrests and armrests

## 4 Compact and easy to handle

- ▶ Optimized wheel base makes it easy to maneuver in small spaces

## 3 Extremely stable

- ▶ Enhanced stability at the front for additional safety and reassurance

## Contoured, ergonomic seat plate

- ▶ Based on the imprints people leave behind when seated
- ▶ A 5° seat tilt lifts the knees into a natural squat position for toileting
- ▶ Transfer supports at the front to allow the user to position themselves into a comfortable position

## Highly Configurable

Available with an extensive range of positioning, safety, toileting and seating accessories that can be used to support a wide range of conditions and postural needs.

## Tilt-in-space models:

**Ocean Ergo VIP and Ocean Ergo Dual VIP**

- ▶ Both have a -5° to 40° seat tilt angle with a smart weight shift mechanism that ensures optimal stability on a small footprint, while the Ocean Dual VIP has an additional backrest recline of 5° to 35°

# Introducing the Ocean Ergo Family

From a standard transit model, to tilt and recline, meet the flexible line of shower chairs that offer personal care solutions for a wide range of physical conditions.

## Modular personal care solutions

SAFE | INDEPENDENT | ERGONOMIC

### **Ocean 24” Ergo XL ▲**
